Mothukuri Karthikeya

+91 9100681956 | karthikeya0325@gmail.com | LinkedIn | GitHub | LeetCode | Portfolio

Education

Indian Institute of Information Technology, Sri City — Chittoor, AP
B.Tech in Electronics and Communication Engineering (CGPA: 8.2) — *Aug 2024 – May 2028*

Projects

PlacementHub – Placement Management Portal | *React.js, Node.js, Express.js, MongoDB* GitHub | Live Demo

- Developed a full-stack MERN placement portal with **Role-Based Access Control (RBAC)** for 3 user roles, managing company drives, resume uploads, and application tracking.
- Built secure RESTful APIs with **JWT authentication**, bcrypt, and reusable Express middleware; used a Mongoose compound unique index to prevent duplicate applications.
- Built a React.js frontend with protected routes and Context API; deployed on Vercel and Render.

Inkwell Books – Full-Stack Bookstore | *React.js, Node.js, Express.js, MongoDB* GitHub | Live Demo

- Built an online bookstore with catalog search, filters, a persistent cart, wishlist, and verified purchase-only reviews.
- Developed an admin dashboard for sales analytics, inventory, and order tracking, with catalog auto-fill from the Open Library API.
- Secured the **Express** API with JWT authentication and bcrypt; deployed frontend and backend separately on **Vercel**.

Flash-Sale Ticket Booking System (In Progress) | *Node.js, Redis, BullMQ, React* GitHub

- Building a full-stack ticket booking platform for flash sales as a modular monolith; designed an atomic **Redis** seat counter with time-limited holds to prevent overselling.
- Protected confirmed bookings from duplicates using idempotency keys and a unique database index; planning JWT auth with refresh tokens, RBAC, and a **BullMQ** worker for confirmation emails.
- Containerizing the stack with **Docker Compose** behind an **Nginx** load balancer across 3 API instances.

Skills

Languages: C++, JavaScript, SQL, HTML, CSS

Frontend: React.js, Tailwind CSS, Bootstrap

Backend & Databases: Node.js, Express.js, REST APIs, JWT Authentication, Role-Based Access Control (RBAC), MongoDB, Redis, MySQL, Nginx

Tools & Deployment: Git, GitHub, Postman, Docker, Vercel, Render, VS Code

Core Domains: Data Structures & Algorithms, OOP, DBMS

Soft Skills: Aptitude, Logical Reasoning, Problem Solving, Leadership, Management, Communication

Achievements

Neutron Coding Fest: Won **1st Place** and a **Rs. 5,000** cash prize in a DSA programming contest (Newton School of Technology, Feb 2025).

LeetCode: Solved **200+** problems; actively practicing DSA to strengthen problem-solving skills.

Leadership & Positions of Responsibility

Placement Coordinator — IIIT Sri City — Aug 2026 – Present

- Coordinated placement activities between students, companies, and the placement cell to ensure smooth recruitment processes.
- Organized placement drives, communicated job opportunities, and assisted students with interview schedules and recruitment procedures.

Senior Analyst — Valiara Club (Finance & Strategy), IIIT Sri City — Jan 2026 – May 2026

- Contributed to finance-strategy discussions; hosted and managed the *Financial Frontier* event during the college fest.
